#### Universal Tracker (Videohive 55316637):

The Tracking Toolkit is an advanced and user-friendly tool designed to revolutionize the editing experience in DaVinci Resolve. Enabling direct tracking capabilities within the Edit page, eliminates the need for complex navigation to the Fusion tab, ensuring a more efficient workflow. Whether you're working with video, images, logos, text, or entire timelines, this toolkit enhances creativity and precision by offering robust tracking features, customizable animations, and versatile masking options.

#### "Universal Tracker" Sample:

- Edit Page Integration:** Seamlessly track footage from the Edit Page without requiring Fusion tab navigation.
- Track Multiple Objects:** Simultaneously manage and track multiple on-screen elements with accuracy and ease.
- Customization Options:** Control IN/OUT animation durations, apply time offsets, and refine Animation Curves for a polished result.
- Versatile Masking Tools:** Add borders or create various masks, including circular, square, and vertical shapes, to suit diverse project needs.

This toolkit streamlines the editing process while amplifying creative possibilities, making it an essential addition for professionals and enthusiasts alike.
