Earth Infographic Elements: You can add infographics to a 3D animation of the globe through this project. The Globe has seven stopping points and three models (day, night, and mixed). Twenty adjustable infographic components, 59 icons, 72 maps, and 29 callouts are also included in the project. Each of the five main blocks is a constructor in which any entity can be substituted. Unified color control helps you easily tailor a project to your style.
