Unreal engine - Sunway Hyperloop Train Station Modular Futuristic SCI FI v5.0: Introducing the game-ready modular futuristic sci-fi subway package featuring a collection of interior props and decals to enhance your gaming environments.

Here's what you can expect from this comprehensive package:

- Consists of more than 40 models and decals, all textured with PBR materials.
- Modular design for easy assembly of both interior and outdoor locations.
- Includes drag-and-drop material instance variations with exposed parameters for customizable options.
- Each model is modular and seamlessly integrates with the overall design.
- Part of an ongoing futuristic city map project, serving as the 9th instalment in the series.

With its versatile assets and easy-to-use features, this futuristic subway package is ideal for creating immersive gaming environments with a sci-fi twist. Whether building a futuristic cityscape or crafting detailed interiors, this package provides everything you need to bring your vision to life.

- It is game-ready and straightforward to use.
- Modular assets with customizable parameters for enhanced flexibility.
- Includes 41 unique meshes with automatically generated collision.
- Tris count ranges from 12 to 61,900.
- Automatically generated LODs for optimized performance.
- Features 19 materials and 51 material instances.
- It comes with a total of 153 textures to add depth and detail to your scenes.
- Supported on Windows and Mac platforms (not tested on Mac).
