PRO EDU – 100 3D LUT Profiles: "Unlock the potential for perfect color in your images effortlessly with our innovative tool —Image 2 Mesh. This Blender Add-on allows you to seamlessly convert images into intricate mesh geometry, providing a versatile solution for Concept Art, Visual FX, 3D Modeling (including photo mapping and reference purposes), and more.

Standard vs. Pro Version:

- The Standard version will receive bug fixes from version 1.3 onward.
- The Pro version offers faster processing speeds and exclusive features for an enhanced user experience.

Update - Version 2+:

- Newer versions (2+) have streamlined features for up to 10 times faster processing, currently exclusive to the Pro tier.
- Older versions remain available for download.

Whether you're a Concept Artist, Visual FX professional, or 3D Modeler, Image 2 Mesh provides a robust toolset to elevate your creative projects. Explore the possibilities and unleash your artistic vision with this innovative Blender Add-on."

- Multiple Conversion Options: Choose from Plane, Screw, or Boolean conversion methods to cater to various creative needs.
- Live UV Projection Setup: Experience automatic UV projection setup while working with live UVs, ensuring a streamlined workflow.
- Vertex Color Mode: Enhance visual richness with the Vertex Color Mode option, adding depth to your mesh creations.
- RGB Color-As-Alpha: Efficiently handle alpha channels with the RGB Color-As-Alpha option, configurable in Add-on preferences.
- Batch Processing: Boost efficiency with Batch Processing, enabling simultaneous conversion of multiple images.
- Alpha-Border Dilation: Fine-tune results with Alpha-Border dilation, ensuring precision in mesh transformations.
