proDAD Hide v2.0.214.2 (Win):

Hide is an advanced software solution designed to seamlessly remove unwanted objects or distractions from video recordings.

Ideal for professionals, YouTubers, and holiday videographers, it offers an effortless way to salvage precious footage by replacing undesired elements with their original backgrounds.

Utilizing intelligent automatic tracking and a streamlined workflow, Hide eliminates the need for complex and time-consuming manual edits, delivering high-quality results efficiently. The software supports resolutions up to 8K and integrates tools like USB pedals to enhance precision and speed during editing.

- **Clear and Simple Timeline:** Streamlined workflow for quick edits.
- **Clip Trimming:** Ability to trim video clips as needed.
- **Convenient Object Marking:** Easy marking of unwanted objects for removal.
- **Manual & Automatic Tracking:** Intelligent tracking for accurate object removal.
- **Keyframe Support:** Comprehensive support for precise edits.
- **USB Pedal Compatibility:** Dynamic control over tracking direction and speed.
- **Preview Window:** Effect control and review before exporting files.
- **Direct YouTube Upload:** Seamless sharing upon export.
- **Framerate Compatibility:** Works with all major framerates (24p to 60p+).
- **High-Resolution Support:** Handles resolutions up to 8K.

Benefits:

- Saves time with automated background restoration.
- Offers superior results compared to traditional editing methods.
- Simplifies the workflow, making it accessible for both beginners and experts.
