MY PROMISE:

If you have any problem with any of these presets please let me know, whether that is difficulty mounting them or you not pleased with exactly how they're working on certain photos, if this is the case, I will directly readjust the preset just for you to make sure it's perfect!

Tips:

All photos have various light settings, however, it is extremely easy to repair this with the exposure slider. Establish the exposure from - 0,30 to + 0,30 relying on your picture, to obtain your excellent mix of colors as well as light. Oversaturated? Do not worry! To repair this issue all you need to do is move the saturation slider left approximately -10. Utilize these suggestions to obtain fabulous results on your special pictures. Call us for more suggestions and also techniques in image modifying.

- Compatible with: Adobe Photoshop, Adobe Lightroom.
- File Type: DNG, XMP, DOC.
