Classic Film Presets 2021 is the brand new toolbox that includes everything that is important. The entire range of analog styles that provide us with the classic colors from film cameras is in the package. Starting with Kodak Portra 400 to Fuji Superia 400 and Ilford HP5 Plus, to the Fuji Velvia 50, Agfa Vista 400, and, of course, Kodak Gold 200 it's all included. In addition, you can see Lomo 400, and Lomo 800, which is the first time they've been released. Each preset comes in different variations that simulate the effects of underexposure and overexposure. Of course, this isn't enough therefore we've added 3 scanner profiles that simulate the most essential Lab Looks. Regular updates will add to the extensive list of profiles.

This software will work using Adobe Lightroom CC (cloud-based Version), CameraRAW (10.3 and above), and Classic CC (7.3 and above). For use in conjunction with Lightroom Mobile, you'll need the Lightroom CC or Classic CC running on Windows and OS X.
