Each and every sound in this innovative collection will inspire your imagination: These samples were all created from field and hardware synthesizers recordings. Then, they have were twisted to give an inspiring alternate reality sound quality. WAV files are offered in the format of 24 Bit/96 kHz, and organized into 11 folders. To provide you with high-quality, ready-to-use sound files to use in your productions, the samples are royalty-free and suitable for all commercial projects.

### Ginno Legaspi review - SoundBytes Magazine :

Another collection of sample sounds produced by Bluezone Corporation, Alien Spacecraft Sound Effects contains 893 MB worth of spaceship-inspired SFX. The vast array of sophisticated sounds in this library that is ready for production is amazing and extremely helpful. Sound effects comprise alarms, alien synthesizer textures, organic and outside background sounds, interior explosions, rumbles, futuristic interface sounds and beeps Spacecraft pass-bys ambients for machine rooms and many more. These sounds were made with the help of various exclusive hardware synthesizers, as well as unique field recordings.

The sounds are all created as well as programmed and optimized to be used in film, TV trailers, games, and TV music. I rate this pack as a thumbs up since the quality of the recording is top-quality. It's not just that it has several unique sounds, but the versatility of this pack will make its way to a lot of producers.
