

Blender Market – Cablerator v1.4.9

2025-02-10 17:14:14 [label](#) [我要反馈](#) [下载页面](#)

Cablerator is a Blender extension (2.8+) to create and edit hanging cables:

- Create cables by clicking on the geometry
- Create cables between points of curvature
- Make cables from geometry or planes
- Create cables by removing edges
- Make hanging cables out of objects
- Create massive amounts of cables that connect certain faces
- Use Blender Physics to model cables
- Create insulation between cables or other objects
- Create simple rope-like structures made of certain cables or even objects
- edit multiple cable widths, assign profiles quickly
- Add geometry to segments as well as the endpoints of cables.
- Create cables using meshes
- Split cables using multi-curve profiles for separate cables
- Add hooks and take them off of the cable points
