Cinetools Extremum: "Extremum" by Cine Tools is a sonic adventure that includes top-quality Trailer cues and immersive sound effects suitable for any action-oriented Thriller project, from adrenaline-infused melodies to massive Cinematic drums, atypical melodies, hypnotic FX, and intense pings and driving pulses, and many additional sounds that take these emotions to a new level. This library leaves no scratch unturned!

In the details, you receive 5 Cinematic Trailer cues ready to use and delivered in industry-standard 24-Bit and 96kHz resolutions to ensure the best quality for the current Cinematic production requirements. Each track is BPM and key-labeled, making picking the correct file simpler. They can be used in your Cinematic productions without paying a licensing fee. This series allows you to create film trailers like professional ones in just a few seconds!

It is perfect for Cinematic Composition, Film Scores and Short-movie Scores Trailers, Commercials, Trailers, Documentaries, and advertising Music for the World, Background, and World. From action Movies to Thrillers, Horror to Science Fiction, or any other type of music, this library offers everything you require to bring your project's promotional material to the highest level.

Dark, Dangerous, Action-Themed, World-Ending, Hypnotic... This pack will take you to a different dimension!

Note: The tracks and stems in the "Trailer Cues Series" can't be used to make tracks for Library Music Companies. Check out the Full License Agreement and ensure you understand the conditions of the license before making any purchase decisions.
