平面设计

Digital Anarchy - Light Wrap Fantastic is a powerful plugin designed to enhance the realism of green/blue screen composites.

By simulating backlighting, it blends the background light with the foreground, eliminating the unnatural "cut-out" look often associated with green screen footage. With GPU acceleration and comprehensive controls, the plugin simplifies the light wrap process, making it faster and more efficient for video editors, compositors, and colorists.

- **Realistic Light Wrap Simulation**

  - Blends background light with foreground to simulate backlighting.
  - Eliminates the "cut-out" look of green/blue screen footage.
- **All-in-One Plugin**

  - Includes lighting, masking, and blend modes in a single plugin.
  - There is no need for additional tools or software packages.
- **Flexible Compatibility**

  - Works seamlessly with popular keying plugins like Primatte, Keylight, Ultimatte, and Mocha Pro.
- **Comprehensive Controls**

  - Offers detailed adjustments for masking and directional light effects directly within the plugin.
- **Fast Rendering with GPU Acceleration**

  - Optimized for CUDA and OpenCL, supporting Nvidia and AMD GPUs for quick HD and 4K rendering.
- **Streamlined Workflow Integration**

  - Designed to fit easily into any compositing workflow with a variety of modes and options.
