Leverage the power of [Tesseract](#) , a comprehensive optical character recognition library that seamlessly integrates the Tesseract OCR engine and Leptonica image processing library. The registered version includes full access to the source code, providing developers with transparency and customization options. Enjoy the convenience of royalty-free distribution in your applications, making OCR implementation on Android efficient and cost-effective.

Key Features of Winsoft OCR.NET for Android :

1. Integration with Tesseract OCR engine
2. Inclusion of Leptonica image processing library
3. Access to complete source code in the registered version
4. Royalty-free distribution in applications
