Magazine Text Builder (Videohive 55160507):

Transform your text into a striking, magazine-style ransom note effortlessly with this fully automated solution. Simply input your text, and the macro takes care of scaling, positioning, and merging for a seamless result. Choose from up to 12 unique designs per character manually or use the Randomize button for instant creativity. Supporting letters, numbers, and special characters, this project works flawlessly in both the studio and free versions of DaVinci Resolve, accommodating any resolution, including vertical formats.
