#### Aescripts Super Shine v1:

Super Shine by aeHamid is a versatile After Effects tool designed for creating customizable light and shine sweep effects on any layer.

It allows users to easily control light movements with simple start and end time markers and adjust the sweep's start and end points.

The tool supports applying multiple shine effects, offers a mirror mode for enhanced visual effects, and enables the addition of other effects, such as glow, through Effect Mode.

With its user-friendly interface, Super Shine provides a flexible and efficient way to add dynamic lighting to projects.
