Bang! - Animated Typeface - AE Project VH-33592284: This animated typeface can be used for many purposes, including Youtube videos, tutorials, cartoons, educational videos, title designs, intros, Greeting Cards, and any other text on the screen.

Unlike other animated typefaces, you don't have to drag each letter into the timeline. Instead, you can write your text in a textbox, and the included Script "EasyType" will import all necessary compositions with a click of a button. This video tutorial will show you how to use the template and script.

All Styles in the Preview are included (and many more!)

- CS6 and higher
- Easy one-click solution using the script included
- no Plugins required
- Simple controls
- Video tutorial included
