Download Aescripts Shortcakes:

Shortcakes is a versatile extension designed for Premiere Pro and After Effects that enables users to divide the screen of selected clips on the timeline based on a specified quantity for each video track. It accommodates different clip and sequence dimensions and includes features for adding borders and numbers to the clips, enhancing the overall organization and visual appeal of video projects.

The "Save Option" button allows users to export selected items in Borders, Numbering, and Shapes as a PNG file. Additionally, users can choose to import the file into the project by checking the "import file" checkbox.
