The Solaye Presets with Chinelle Rojas is employing Exceptional technologies to convert actual optically captured Window lighting results to Lightroom & Photoshop, bridging the difference between Photo applications and the true world. Offer your pictures that extra pop-up to make Something special. Select from Several window lighting Results as well as three color Backgrounds to present your images more thickness.

Solaye Presets utilize Lightroom Classic 7.5 or greater, Camera RAW 10.5 or greater. Please Make Certain to check your model number before purchasing.

HOW TO USE

Based upon Your present system, the operation might vary For many of you. If you notice any functionality issues, Make Certain to activate clever previews. If That Doesn't help in Any Way, you can use the presets on edited .jpg Pictures, which is going to end in a smoother experience.

Our LLFx brush presets are something totally fresh, unlike Whatever you've ever used previously. Improve the mood of your pictures using a variety of brush presets.

Please note that full performance is only provided in Lightroom in conjunction with our own LLFx plugin.
